WILLIAM BRADSHAW SIDE CHAIR

William Bradshaw side chair

A most unusual chair from the English Regency period, and a bit of a rarity to delight furniture historians.

The reeded back uprights have a sweeping strut just above the seat connecting them to the front, thus improving the strength of the chair enormously.

There is very little machining involved in making this chair: the vast majority is all handwork. It is understandable why this type is such a rarity today.

William Bradshaw side chair Model: CH-K. An elbow chair version is also available.

Dimensions (mm): w 500 d 550 w 860 sh 450

Stock: to order
