MONACO STARBURST MIRROR MNC-MR-146

Model: MNC-MR-146

Monaco Starburst Mirror RADIANCE

Very much a focal point.

The central round bevelled glass has a polished macassar ebony frame. In addition, all of the many radiating mirror glass pieces forming the starburst are bevelled. This detailing adds to the already scintillating reflections.

Macassar Ebony is a relatively fast growing small tree from Indonesia. Not only is it not endangered , it is not even threatened. The wood has beautiful stripes of chocolatey brown and black, with honey golden streaks over a lower layer of rich deep red.

Because of its small size, (not much bigger than a shrub), the wood is used mainly for very small

The Classic Chair Company

decorative objects, but mostly it is reserved for veneers. For example, it is often used for the frets on musical instruments.

Dimensions (mm): Dia. 1200

PRODUCT DESCRIPTION

Monaco Starburst Mirror RADIANCE

Very much a focal point.

The central round glass has a polished macassar ebony frame. In addition, all of the many radiating mirror glass pieces forming the starburst are bevelled.

Macassar Ebony is a relatively fast growing small tree from Indonesia. Not only is it not endangered, it is not even threatened, which is very good news.

The wood has beautiful stripes of chocolatey brown and black, with honey golden streaks over a lower layer of rich deep red.

Because of its small size, (not much bigger than a shrub), the wood is used mainly for very small decorative objects, but mostly it is reserved for veneers. For example, it is often used for the frets on musical instruments.
